

Dear Redistricting Committee,

I am submitting comments to this committee for the 2nd time. Not only did this committee disregard the concerns expressed in my initial comments, it went even further to decimate the 5th Legislative District as the Park South neighborhood has now been removed from it with its most recent legislative district boundaries proposal. The germane community of interests shared by the 4 neighborhood associations presently contained within the 5th Legislative District (Park South NA, Hudson/Park NA, Washington Park NA, and Center Square NA) as detailed in my initial comments is showing up as having negligible concern to this committee.

Given this reality, should this committee continue to ignore the vital concerns that have been brought to its attention, the legitimacy of the recommendations made by this committee should be seen as highly questionable.

Respectfully submitted,
Andrew Harvey
President
Park South NA
